Packing list:

- 1 SET OF DOWNPIPES AND COLLECTOR
- 4 CYLINDER PORT GASKETS
- 1 CARBON GASKET
- 1 TUBE OF SILICON
- 4 COLLECTOR SPRINGS

- **Fitting instructions:**
- Please check packing list before you start.
- We strongly advise that this product is fitted by an experienced motorcycle mechanic.
- Always fit new gaskets & apply high temperature silicon sealant to all slip fit joints.
- Remove the old exhaust.
- Clean exhaust ports of old gaskets, dirt and carbon deposits.

- **Insert new cylinder port gaskets.**

- Insert one pair of down pipes into the collector and the cylinder head.

- **Repeat with the other pair of pipes.**

- **Refit the silencer.**
- **Starting from the front working rearwards, tighten all fasteners fully.**
- **Fit the collector springs.**
- **Start the engine and check for leaks.**
- **After your first ride out, check all fasteners for tightness.**
