- **Fitting Instructions**

- We advise that this product is fitted by an experienced motorcycle mechanic.
- Please check packing list before you start.
- Secure motorcycle on level ground using a paddock stand. Recommended!
- Remove standard exhaust system.
- Clean the cylinder ports of old gasket material, dirt and carbon deposits.
- Insert new gaskets.
- Fit the cast adaptor to the front cylinder head.
- Fit the downpipes to the cylinders finger tight at this stage.
- Assemble the brackets to the silencers.

- Fit the front, lower silencer to the downpipe fully tightening the mounting bracket.

- **Fit the rear, upper silencer to the downpipe fully tightening the mounting bracket.**

- **Starting from the front, working rearwards tighten all clamps and fasteners.**
- **Start the engine and check for leaks.**
- **After your first ride out, check all fasteners for tightness.**
