Fitting Instructions

We strongly advise that this product is fitted by a qualified motorcycle mechanic.

Please check packing list before you start.

Secure motorcycle on level ground using paddock stand. Recommended.

Remove seats, panels and standard exhausts as necessary.

Fit link pipes with heat shields and clamps on to collector.

Insert silencer, note clamp goes over the heat shield.

*Remove standard frame rubber bushes.
Fit frame bracket and strap, loosely.*

And rotate into position

Rotate link pipes to obtain alignment and clearance.

Starting from the front, tighten all clamps and fasteners.

Start engine and check for leaks.

Replace panels, seats etc

After your first ride out, check all fasteners for tightness. Especially the baffle bolts.
