- **Fitting Instructions**

- We advise that this product is fitted by an experienced motorcycle mechanic.
- Please check packing list before you start.
- Secure motorcycle on level ground using a paddock stand. Recommended!
- Remove existing exhaust.
- Clean cylinder head ports of old gasket material, dirt and carbon deposits.
- Fit the new cylinder port gaskets and the header pipes with collectors finger tight.

- **Fit the mid-pipes into the collectors.**

- **Attach the brackets to the silencers.**
- **Fit the silencers with clamps on to the mid-pipes and attach the brackets to the bike frame.**
- **Starting from the front, working rearwards tighten all clamps and fasteners.**
- **Fit the collector springs.**
- **Start the engine and check for leaks.**
- **After your first ride out, check all fasteners for tightness, especially the baffle bolts.**
