- **Fitting Instructions.**
- *We strongly advise that this product is fitted by an experienced motorcycle mechanic.*
- *Please check packing list before you start.*
- *Always fit new gaskets*
- *Secure motorcycle on level ground using paddock stand. Recommended!*
- *Remove standard exhausts and footrest brackets.*
- *Clean collector pipe of old gasket material, dirt and carbon deposits.*
- *Fit the extension plates to the frame.*

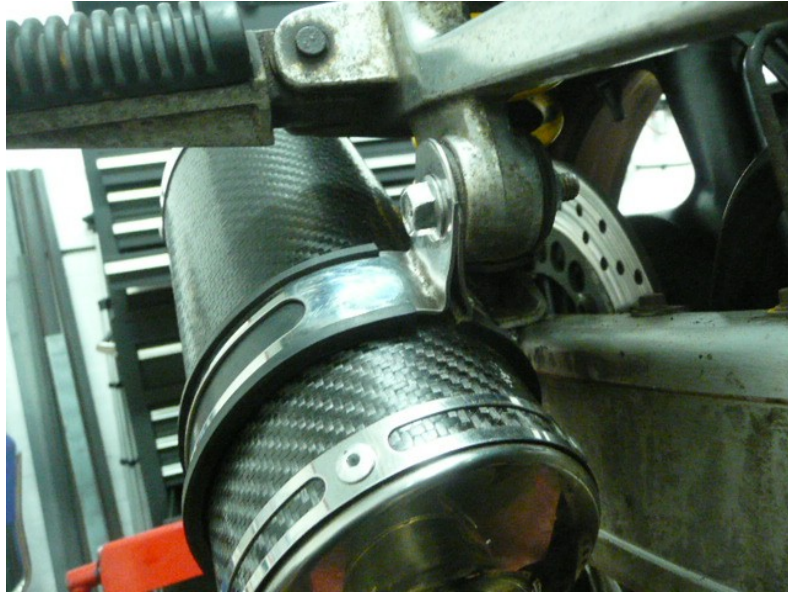

- *Refit footrest hangers using cap screws, nuts and washers.*

- *Insert new carbon gasket inside the slotted end of link pipe.*
- *Fit correct Clamp and insert it on to collector, aligning the stand stop.*

- *Fit the silencer with clamp on to the link pipe.*
- *Now fit the strap around the silencer and to the footrest bracket.*

- *Repeat on the other side.*
- *Rotate link pipes until you happy with alignment and clearance.*
- *Starting from the front, tighten all clamps and fasteners.*
- *Start the engine and check for leaks.*
- *After your first ride out, check all fasteners for tightness, especially the baffle bolts.*
