

ZZR 1400 2012-2016 LINK PIPES

Packing List:

2X LINK PIPES PR2254
2X SILENCERS OF CHOICE AND STRAPS
4X CLAMPS 52mm/55mm PR2065

Fitting Instructions.

We strongly advise that this product is fitted by a qualified motorcycle mechanic.

Please check packing list before you start.

*Secure motorcycle on level ground using paddock stand. Recommended!
Remove standard silencers.*

Please note the R/H side has an extra mounting bolt which is not needed to fit the link pipe.

Clean collector pipe of old gasket material, dirt and carbon deposits.

Start from the R/Hand side.

Fit Clamp onto link pipe and insert it on to collector, aligning stand stop level with the floor.

Nip up bolt not too tight for now, just to support it.

*Insert silencer with clamp on to link pipe.
Now fit strap onto silencer and to frame.*

*Repeat on the other side.
Rotate link pipes to obtain alignment and clearance.
Fully tighten all clamps and fasteners.
Start engine and check for leaks.
After your first ride out, check all fasteners for tightness, especially the baffle bolts.*
